

City View 2 at Evergreen Site Map

City View families will enter through Evergreen using the Bus lane and proceed to the west side of the building.

Before school staff will be outside to greet students and perform Student COVID Screenings prior to students being allowed in the building.

If students are late to school, there will be a number posted for parents to call so a staff member can come out and perform the COVID screening before the parents leave campus.

Families will exit towards 4th avenue (there is a barrier that moves when your vehicle approaches)
