

City View Charter School

A School of EL Education

www.cityviewcharter.org

Dear City View Community,

On Friday, July 24, 2020 the City View Charter School Board of Directors met to discuss plans for reopening City View this fall. We are grateful to have thoughtful staff and teachers who have been tirelessly planning, learning, following rapidly changing current events, and weighing numerous options for our students and school community.

We are all committed to the safety of our students, staff and community. After reviewing information from staff and families, the recommendation from the Board was for City View to focus efforts on implementation of a **comprehensive distance learning (CDL) school model for at least the first semester**. This recommendation allows both our school's design team and families to plan for a foreseeable amount of time this year and reduces, to the extent possible, last minute changes in the first semester. This decision helps us all find a clear path to plan for the start of the school year. **Additionally, focused efforts on one learning model will allow the City View design team, teachers and leadership an opportunity to create an inclusive, responsive, and quality comprehensive distance learning program.**

The City View Charter School Board of Directors will meet online in regular session on August 13, 2020 to review, discuss and vote on the CDL blueprint. This blueprint is a mandatory planning document that will then be submitted to the Hillsboro School District and the Oregon Department of Education. While we are recommending a focused CDL model for the first semester, the Board is open to reviewing this model for modification should there be a significant shift in pandemic conditions in the county and state. We will continue to seek and monitor advice and guidance as it is released from the State, education and health organizations.

One of the positive aspects in all of this is that we have such a wonderful City View community. I am confident that we can pull together to support our community with not only an exceptional distance learning plan, but also access to other services that our fellow families may need during this crisis. As City View's Board of Directors, we will continue to communicate ideas and opportunities. **We encourage you to join us at meetings, communicate with Board members via email or phone, and reach out to your fellow class families to identify how we can support each other.**

In Crew,

Melissa Stark

President

City View Charter School Board of Directors
